Pie Chart

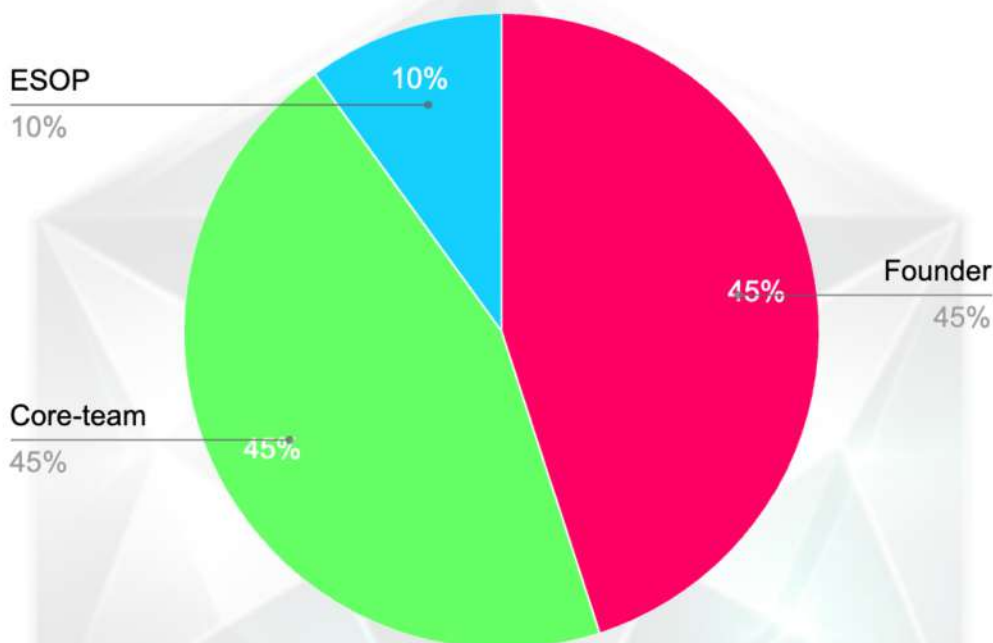

Stakeholder	Shares	% FD
Founder (issued)	9,000,000	90%
ESOP (reserved, unissued)	1,000,000	10%
Total authorized	10,000,000	100%

*Illustrative pro forma view only. At incorporation, **9,000,000 founder common shares are issued (90% fully diluted)**. **1,000,000 shares (10%)** are reserved for the ESOP and remain unissued. No pre-seed SAFE instruments have been executed. Authorized share structure: **10,000,000 common shares**.*

TARGET (post core-team allocation)

Co-founder and core-team equity allocated from the pre-reserved co-founder pool (up to 40% of authorized shares). ESOP remains at 10% reserved. Still pre-SAFE — no investor conversion.

Pie Chart

Fully diluted ownership (target)

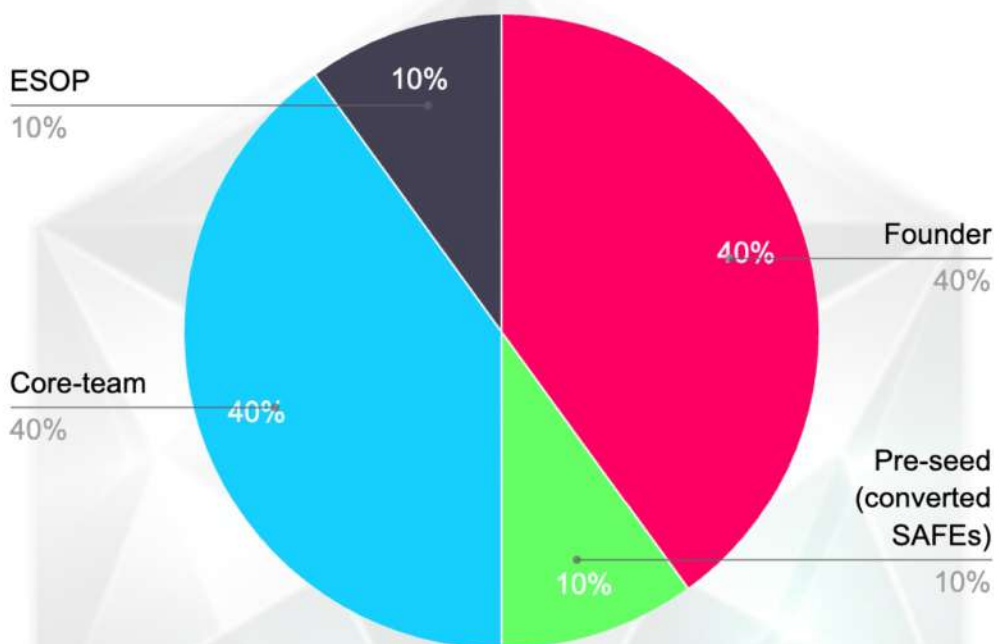

Stakeholder	Shares	% FD
Founder	4,500,000	45%
Core team (aggregate)	4,500,000	45%
ESOP (reserved)	1,000,000	10%
Total authorized	10,000,000	100%

Core-team equity (4,000,000–4,500,000 shares, target 40–45% FD) will be granted from the founder's issued block post-SAFE close, via Restricted Stock Agreements with standard vesting. Founder retains 4,500,000–5,000,000 shares (45–50% FD). ESOP reserve unchanged at 1,000,000 shares (10%). Illustrative targets only; subject to board approval.

Pro forma — pre-seed SAFE conversion @ Seed

Assumes full \$750K pre-seed SAFE round across three tiers, converting at the Seed priced equity round. Pre-seed investors receive ~10% fully diluted in aggregate.

Pie Chart

Fully diluted ownership (pro forma @ conversion)

Stakeholder	Shares	% FD
Founder	4,000,000	40%
Core team (aggregate)	4,000,000	45%
ESOP (reserved)	1,000,000	10%
Pre-seed SAFE holders	1,000,000	10%
Total authorized	10,000,000	100%
